

**Andrea Vai** graduated in Computer Science and in Physics, with a specialization in Physics Education. Astrophile from an early age, he has spoken at numerous Astronomy conferences, organized by various Institutions and groups, and during evenings of sky watching. Vai participates in didactic activities and holds lectures and demonstrations in schools at all levels. At the University of Pavia, he chiefly works with information technology, physics and interfacing, and collaborates with the Pavia University History Museum by regularly offering lessons in a small planetarium.
